📖 Books

01 PROFESSIONAL PROFILE

I am a passionate 3rd-year Computer Science student, eager to learn and build innovative solutions. I am constantly improving my skills in software development, problem-solving, and cybersecurity.

02 EDUCATION

Bachelor of Technology in Computer Science & Engineering

KIIT UNIVERSITY (2022 - Present)

- Current CGPA: 9.07/10

Senior Secondary (Class 12)

GREENLAND SECONDARY SCHOOL — Completed in 2021

- Percentage: 84%

03 PROJECTS

Jarvis Voice Assistant

Developed a voice-activated assistant using Python. Integrated APIs to enable the assistant to answer questions, check the weather, send emails, and open applications.
.GitHub: https://github.com/yourusername/jarvis-voice-assistant

E-commerce Website (Ongoing)

Developing a full-stack e-commerce platform using Django and React. Features include user authentication, product management, and payment integration.
·GitHub: https://github.com/yourusername/ecommerce-platform

Portfolio Website

Built a personal portfolio website to showcase my projects and skills using HTML, CSS, and JavaScript, with responsive design principles.
